

## 2. Family – Család

*“That’s your father.”*

**1. What is your family like?**

I don't have a big family. I live with my mother, father, and little brother. My father's parents died long ago. My mother's parents live about 200 kilometres from us.

**2. How old are your parents?**

My father is forty-two and my mother is thirty-nine.

**3. What does your father look like?**

My father is of average height. He is slim and good-looking because he does a lot of sport. He has brown hair and brown eyes.

**4. What does your mother look like?**

My mother is a bit shorter than my dad. She has brown hair and blue eyes. She wears glasses. I think she is beautiful and looks much younger than she is.

**5. What does your mother do?**

She works as a secretary for a big multinational. She works from eight to half past four every weekday.

**6. What does your father do?**

He is a lawyer. He works with his friends who are also lawyers. They have an office downtown. He works a lot. He leaves home early in the morning and never gets home before six.

**7. Are you like your mother or father?**

My grandparents say I look like my mother but I think I have my father's nose and chin. I'm as shy as my mother and I also collect things like my father. He still collects beer mats and I have started to collect all kinds of things with pictures of polar bears.

**8. What do you think ideal parents are like?**

I think they should understand their children and spend a lot of time with them. It's good if you can tell them everything. In my opinion it's not good if parents are too strict but it's not good if they are too lenient either.

**9. How many brothers and sisters do you have?**

I have an elder brother and a stepsister from my stepfather's first marriage. My brother is 23 and works as a computer programmer. He doesn't live with us. My stepsister is 30 and works in a library.

**10. What are your brothers and sisters like?**

My elder brother is rather tall. He's almost two metres. He's good at basketball. He has curly brown hair and green eyes. Girls like him a lot. My little sister is only 5 years old. She has fair hair and big brown eyes. She has extremely long eyelashes. She likes sweets very much, so she's a bit plump.

**11. Do you have any cousins?**

Yes, my mother's sister has three children and her brother has two. As my father is an only child, I have no cousins on his side. My cousins are all younger than me.

**12. Do you live at home during the school year?**

No, we live in a small village and my school is in a town about 50 kilometres from us. There is no direct bus or train, so I stay at the school hostel. I go home at weekends.

**13. How do you get on with your family?**

I think we have a very nice family. We talk about everything and decide things together. We spend almost every weekend together and during school holidays we travel in Hungary or abroad.

**14. What do you think the best thing in your family is?**

I like that we have the same interests. We like sport and often go swimming and orienteering. We also like playing board games and cards.

**15. How much time do you usually spend with your parents?**

Unfortunately, my parents are very busy, so we can't spend as much time together as we would like to. My father often does overtime at weekends and my mother works in three shifts because she is a nurse.

**16. What sort of things do you do with your mother?**

We recently started to do glass painting. I like it very much. My mother bought a lot of books about it and we have already painted a lot of things from these books.

**17. What do you do with your father?**

At weekends we usually play football with my father's friends in my school's gym. Some evenings we play chess or cards.

**18. How do you spend time with your brothers and sisters?**

We both dance in the local folkdance group and we like playing computer games too.

**19. Do your grandparents live with you?**

Unfortunately, my father's parents died long ago. My mother's parents live in a small village in the north of Hungary. We meet them only once a month.

**20. How often do you meet your grandparents?**

My mother's parents are our neighbours, so we meet them every day. My grandma cooks lunch for me and my brother on weekdays. My father's parents live near Szombathely. We spend most of our school holidays with them. They have a big house with a garden and two dogs and three cats. There's a lake nearby where we can fish. We often go hiking in the hills as well.

**21. Have you got a lot of relatives?**

Yes, I have. My mother has three sisters and my father also has a big family, so I have sixteen cousins.

**22. How often do you meet your relatives?**

The whole family gets together at Christmas and Easter. We meet at my grandmother's house because it's big enough. Otherwise we phone or email each other quite often.

**23. Which of your relatives do you like best?**

I like my grandfather's brother very much. He lives alone and has a lot of free time to spend with us. He tells us interesting stories from his childhood. He also spent a few years on a big cruiser as a sailor, so he has had lots of adventures. It's quite surprising that he enjoys computer games and surfing the net at the age of 73.

**24. Who are distant relatives?**

Distant relatives are, for example, your grandparents' brothers and sisters and their families.

**25. At what age do young people usually leave home in Hungary?**

As far as I know, most people leave home when they start university or get a job. My sister moved to Szeged when she started the university there. Only one of my cousins lives with her parents, but she is only 13 years old.

**26. Do your parents decide what you can do in your free time?**

No, they don't. I can do what I want as long as I come home before eleven and don't do anything foolish. They know they can trust me and I turn to them if I need their advice.

**27. Do your parents tell you what time you have to get home in the evenings?**

Yes, they do. As I'm 14, I usually have to be at home by nine at weekdays and by eleven on Saturdays. On special occasions they allow me to stay out a little longer.

**28. How do you imagine your future family?**

As I'm an only child, I would like a big family with at least three children. I always envy my friends who have brothers and sisters. I would like to have a good job. My future wife won't have to work. She can stay at home with the children, meet her friends and do her hobbies.

**29. Do you think it is good to have a big family?**

I think it has some advantages and disadvantages too. It's good that you never feel alone, there's always someone to discuss your problems with, and big family occasions are great fun. On the other hand, you don't have much time for yourself, you keep forgetting birthdays and namedays, and there might be disagreements as well.

**30. Can you choose your own friends?**

Yes, I can. My parents have always liked my friends and even plan activities for us sometimes. For example, when the weather is nice, we have parties. We grill sausages and vegetables in the garden and play Activity.

**31. Would you like just one child or more?**

To tell the truth, I would like to have one child only. With just one child I can work and earn enough to give the child everything he needs. He can go to good schools, we can travel a lot together, I can afford to buy him the latest equipment and whatever he needs for his studies and hobbies.

**32. Do only children miss a lot of things?**

I really don't know. I think understanding parents and good friends can help a lot.

**33. Why is it good to have brothers or sisters?**

You can spend your free time together, they can help you with your problems, and you never feel alone.

**34. Have you got relatives abroad?**

Yes, I have. My mother's brother married a Portuguese girl. They have 3-year-old twin daughters. They live near the ocean and I always visit them during my school holidays.

**35. Have you ever visited your relatives abroad?**

Yes, we visit my aunt who works in Brussels twice a year. I like being there because she always makes nice plans for us. We even travel to the neighbouring countries.

**36. How do you keep in contact with your relatives who live abroad?**

We often email my cousin who studies in the USA. We almost never talk on the phone because it's rather expensive. I have some relatives who live in Slovakia and we meet them in the summer either in Hungary or in Slovakia. We talk on the phone once a month or when there's something urgent to discuss.

**37. What are the red-letter days in your family?**

We celebrate birthdays, namedays, my parents and grandparents' wedding anniversaries, Christmas and Easter in my family. We don't always invite all the relatives though I like it very much when the whole family gets together.

**38. What is the greatest family celebration for you?**

I enjoy Christmas the most. The whole family gets together: my aunts, uncles, grandparents and cousins. We usually meet at our house because we have the biggest dining room. We cook Christmas dinner and decorate the Christmas tree together. It's always great fun.

**39. How do you celebrate your birthday?**

My parents always prepare some surprise for me. Last year they held a surprise party. They invited all my friends and relatives, so we were 55 altogether. They decorated the whole house with balloons and colourful lights. I got lots of presents. My mother cooked my favourite meal and she also baked a delicious cheesecake.

**40. How do you celebrate your nameday?**

My nameday is a great event in my family because my father and my grandfather are also called Peter. We have a big party in my uncle's garden and cook beef stew. This is the only occasion when the whole family is together. The adults talk and sometimes sing and dance, and the children play games.
